EXPERIENCE

BNY - Pershing Advisor Solutions

Data Integration Specialist | VP | Transition Events

August 2021 - Present

- Led data aspect for large-scale advisor transition events, migrating and validating up to 17,000 client accounts while maintaining strict data-quality and compliance standards in a client-facing environment.
- Designed and deployed a scalable survey-based onboarding solution for breakaway advisors, streamlining data capture for firms with 5,000+ accounts and improving transition efficiency.
- Performed multi-level analytics, producing insights tailored to both executive leadership dashboards and detailed operational workflows.
- Advanced user of Alteryx and Excel; built automated and reusable workflows for large datasets and earned multiple Alteryx certifications.
- Designed and deployed multiple AI-powered automation agents to streamline executive reporting, enhance event-tracking analytics, and reduce manual data processing.
- Designed and delivered AI training for 80+ associates on AI fundamentals, prompt engineering, and practical use cases, driving a 30% increase in AI tool adoption.

Edelman Financial Engines

Client Service Associate

November 2019 - August 2021

- Provide superior client service by handling all incoming client requests and following-through to ensure client's needs are met.
- Prepare and review all new account paperwork. Verify accounts are traded into the correct model and aid operation teams as needed.
- Help build strong relationships with clients to maintain assets and encourage future investment.

Winston Benefits

Policy Administration Processing, Licensed Insurance Enroller

October 2016 - November 2019

- Worked with the enrollment team as onsite (face to face) Licensed voluntary insurance enroller.
- Responsible for Therefore (Canon), information management and document-workflow software. Archiving Life, and voluntary insurance policies.
