PROFESSIONAL SUMMARY

Financial services operations professional with 7 years at BNY Pershing and Edelman Financial Engines. Performed KYC validation and quality assurance on 49,000+ client accounts, supported bulk CIP validation on 10,000+ customers, and reviewed complex business accounts with layered beneficial ownership, OFAC sanctions/PEP screening hits, and identity mismatches. Detail-oriented, analytical, and calm under pressure, with strong written communication skills.

PROFESSIONAL EXPERIENCE

BNY - Pershing Advisor Solutions August 2021 - Present

Data Integration Specialist, VP - Transition Events

- Reviewed and processed data for 49,492 client accounts over a 5-year period, performing KYC validation, quality assurance, account-opening documentation review, and asset movement preparation for large-scale transition and onboarding events.
- Reviewed complex business accounts with layered management and beneficial ownership structures to identify ultimate beneficial owners (UBOs) and control persons.
- Assisted in working with Equifax to streamline bulk CIP and ongoing screening, meeting the standard file layout and successfully running CIP validation on 10,000+ customers.
- Resolved identity and data mismatches (name, SSN/TIN, DOB, address) on client accounts.
- Reviewed OFAC sanctions and PEP screening hits and escalated accounts to Compliance/AML as needed.
- Wrote and updated procedures and checklists, and supported audit and regulator requests.
- Led the data workstream for large-scale advisor transition events, migrating and validating up to 17,000 client accounts while maintaining strict data-quality and compliance standards in a client-facing environment.
- Designed and deployed a scalable survey-based onboarding solution for breakaway advisors, streamlining client data capture for firms with 5,000+ accounts and improving transition efficiency.
- Built Alteryx and AI-agent BI dashboards that convert unstructured data and Trello extracts into structured JSON for executive and SAL reporting.
- Designed and delivered AI training for 80+ associates on AI fundamentals, prompt engineering, and practical use cases, driving a 30% increase in AI tool adoption.

Edelman Financial Engines November 2019 - August 2021

Client Service Associate

- Prepared and reviewed all new account paperwork prior to account opening.
- Verified that accounts were traded into the correct model and supported operations teams as needed.
- Handled all incoming client requests, providing responsive, high-quality client service.

Winston Benefits October 2016 - November 2019

Policy Administration Processing, Licensed Insurance Enroller

- Managed policy records in Therefore (Canon) information management and document-workflow software, archiving life and voluntary insurance policies.

PROJECTS

On Point Parties Website (onpointparties.com) - Designed and built a responsive website for a New Jersey event-decor business, with a filterable offerings gallery and a Netlify Forms quote-request intake.
